Police Did Not Shoot.

The think he was, and the woman killed was also a striker. I think that shooting started as pure devilment to raise trouble and that there was no intention to kill anybody. The police did not shoot.

Captain Sullivan also told of another officer who was stabbed during the same outbreak. Another method of the strikers to arouse trouble, he said, was the concerted plan of the strikers in flocking through the stores, passing in and out without buying anythins.

They had our storekeepers in a state of terror, and for some time business was practically at a standstill, though the stores were not closed," he said.
